1. Project Summary / Project Platform Summary

1.1. Project name / Project platform name

Please insert the full name of your project platform. The name should relate to the content of your project platform.

1.2. Project acronym / Project platform acronym

Please insert the acronym for your project platform. The acronym is a short title which allows easy identification of the project platform. The acronym should have a maximum of 20 characters.

1.3. Priority

The Programme priority is set based on the information provided in the project platform idea form and a consultation with the MA/JS, after which access to the online application system BAMOS is granted. Further details on the Programme priorities can be found in the Cooperation Programme (2. Priority Axes) and the Programme Manual (B.1 General objectives).

Pre-selected, after the consultation with the MA/JS of the Programme when access to the online application system BAMOS is granted.

1. Capacity for innovation
2. Efficient management of natural resources
3. Sustainable Transport
1.4. Programme specific objective

Please select the Programme specific objective which is most relevant for your project platform. Further details on Programme specific objectives can be found in the Cooperation Programme (2. Priority Axes) and the Programme Manual (B.1 General objectives).

</tr>
</tbody>
</table>

1.5. Project duration / Project platform duration

Please indicate the duration (in months) of your project platform implementation phase. The minimum duration of the project platform implementation phase is 12 months and the maximum duration is 26 months. Please note, the project platform implementation phase will start on the 1st calendar day and end on the last calendar day. The duration of the project platform contracting and closure phases is automatically calculated by the Programme. Further details on the project phases and linked cost eligibility rules can be found in the Programme Manual (D.3.4 Duration of project platforms, D.3.5 Budget and eligibility of costs and F.2 Overview on project phases and related costs).

1.6. Summary of the project / Summary of the project platform

Please provide an overview of the project platform and describe the following:

- the common challenge the partnership is jointly tackling in the project platform;
- the main target groups the project platform will involve and interact with;
- the main objective of the project platform;
- the additionality of the project platform to the regular projects’ results and the existing coordination and cooperation among the running projects;
- the main outputs that the project platform will produce and who will use them;
- the expected change for the region.

Summaries of project platforms selected for funding will be used for publicity activities. Therefore, please make your project platform summary easy understandable to a wider audience: use simple language and short sentences. Please avoid including technical details on the project platform constellation and do not give any references to other parts of the application form. The summary may be published on the Programme website.

interreg-baltic.eu
1.7. Summary of the partnership

Please provide an overview of the project platform partnership. Please take a note that the core of the platform partnership should be based on Interreg Baltic Sea Region projects.

Please describe the following:

- particular competences and know-how of the partners for a successful implementation of the project platform;
- regular projects from Interreg Baltic Sea Region and other EU funding programmes, partners from which are involved in this project platform (please specify, if applicable, which countries outside the Interreg Baltic Sea Region Programme area are covered by the partnership);
- when relevant, involvement of coordinators of the EU Strategy for the Baltic Sea Region and their role in the project platform;
- when relevant, associated organisations and their role in the project platform;
- when relevant, plans to involve reserved platform partners e.g. from new projects selected later in EU funding programmes;
- when relevant, involvement of organisations as partners that do not represent an EU funded project or an EUSBSR coordinator;
- when relevant, justification of imbalances in the partnership composition (e.g. missing partners from a specific country/sector; one country/partner with significantly higher share of the budget).

1.8. Lead applicant declaration

(only visible in printed version)

Please date, sign and stamp the application form. The lead applicant declaration must be signed by a person entitled to make commitments on behalf of the lead applicant organisation. Photocopies cannot be accepted.
2. Partnership

2.1. Overview: Project partnership / Project platform partnership

This section shows a list of all platform partners and if relevant of the reserved partners and the associated organisations. For details regarding the partnership please see the Programme Manual (chapter C Formal expectations towards project partners, D.3.3 Composition of project platform partnership) and the announcement note for this call.

If you liked to add a project partner, a reserved partner or an associated organisation, please press the respective button on top of the section.

Please note: To activate the possibility of adding reserved partners please consult the MA/JS beforehand.

For editing the data of the listed organisation please click directly on the organisation, which you would like to edit.

For deleting an organisation from the list, please press the cross sign at the end of the respective line and confirm the deletion in the following dialogue.

The "Complete" column indicates whether the provided partner data is complete.

2.2. Project partner details - Partner X / Project platform partner details - Partner X

Partner information

Please enter partner information: name of the organisation in the original language and in English as well as name of the department in the original language and in English, if applicable.

Localisation

Please complete the address of the partner organisation, including the NUTS region.

Website

Please enter a website address in the format www.interreg-baltic.eu (without "http://").

Organisation identification number

Please fill in a unique identifier of the partner organisation. This might be an identification number from a register for legal entities/court register/business register/tax authority/association or another relevant register. This number is used by the national authorities of your country to identify your organisation and to assess its eligibility, also as a lead partner.

Type of registry

Please enter where your organisation is registered with the above indicated Organisation ID (e.g. register for legal entities/court register/business register/tax authority/association or other relevant register).

Legal representative

Please indicate the position of the legal representative of your organisation. This is the position of the person entitled to make legal and financial commitments on behalf of your organisation.

Contact person

Please indicate the position of the contact person responsible for the implementation of the project platform within your organisation. This person will also be the main contact during the implementation if the project platform is selected for funding.
Please indicate the legal status of your organisation. Please note that only the lead partner organisation's legal status has to correspond to a category a) to e).

For more information on the legal status please consult the Programme Manual (C.1 Eligible project partners).
In case of doubts regarding your legal status please consult your national Monitoring Committee representatives of the Programme.

### Legal status

Please indicate the legal status of your organisation. Please note that only the lead partner organisation's legal status has to correspond to a category a) to e).

For more information on the legal status please consult the Programme Manual (C.1 Eligible project partners).
In case of doubts regarding your legal status please consult your national Monitoring Committee representatives of the Programme.

| f) Bodies established under private law, having legal personality, but not fulfilling criteria i and/or iii under category b) |
| g) European Economic Interest Grouping (EEIG) as defined the regulation (EEC) No 2137/1985. |

A bodies established under private law, having legal personality, but not fulfilling criteria i and/or iii under category b)
Adding Reserved Partner

(Dialogue after pressing the button "+ Reserved Partner")

Reserved project platform partners may join the project platform at the stage of its implementation phase to contribute to the platform with specific knowledge and outputs they work on in regular projects. Such regular projects with these partners are e.g. selected for funding later than the application stage for project platforms.

You have to consult the MA/JS before this option is unlocked for your application.

For more information about the reserved project partners please consult the Programme Manual (D 3.3 Composition of project platform partnership and D.1.6.2 Reserved partners).
2.3 Reserved Partners Details - Partner X

It is possible to reserve a budget for further partners that will join a project platform later, e.g. from new projects selected later than the application stage of the project platforms.

Please indicate the type of a reserved project platform partner, that could be involved. Further details of reserved project partners (name, address, country etc.) should be provided once known at the project platform implementation phase.

The potential reserved partners’ expertise and main activities assigned to them should be indicated in the work plan, to the extent possible. Whereas the reserved partners’ budget has to be indicated in the respective budget lines.

2.4 Associated Organisation Details - Partner X
Please provide information on the associated organisations. If possible, submit their letters of support to
the MA/JS together with the paper version of the application form.
Associated organisations support the implementation of the project platform, but are not project
platform partners and they cannot receive the Programme co-financing.

Further information on the involvement of associated organisations can be found in the Programme
Manual (D.3.3 Composition of project platform partnership and D.1.6.1 Associated organisations).

Relevance

3.1. Challenge to be addressed
Please describe the transnational challenge and/or opportunity your project platform is going to address in relation to <chosen objective>. Your explanation should answer the following:

- What is the current situation in the field addressed? What are the main achievements of EU funded projects that are used as a basis for the project platform development?
- What are the main gaps that your project platform is addressing?
- What are the main needs of the selected target groups for the project platform in the field addressed?
- What is the main added value of the project platform to existing projects and cooperation forms in the field?

If possible, support your statements with statistical information and examples.

3.2. Transnational value of the project / Transnational value of the project platform
Please describe the main added value of the project platform on transnational level.

3.3. Political and strategic background of the project / project platform
Please present a political and strategic background of your project platform and describe the contribution of your project to any of the policies and strategies.

You might refer to EU, national level, regional or sectorial policies and strategies (e.g. EUSBSR, EU2020, Water Framework Directive, Marine Strategy Framework Directive, TEN-T, RU North-West Strategy).

3.4. Project’s/Project platform’s contribution to the EU Strategy for the Baltic Sea Region
Please describe the contribution of your project platform to the EU Strategy for the Baltic Sea Region and its Action Plan. Please indicate the relevant Policy Area or Horizontal Action of the Strategy. Please explain the involvement of the relevant coordinators of the EUSBSR to the project platform activities. Please indicate how outputs and results of the project platform will feed into the work of the policy area or horizontal action coordinators.

3.5. Seed money support
This part of the application is not relevant for project platform applicants. For technical reasons please select "No, we have not received any seed money support from the EUSBSR Seed Money Facility/Baltic Sea Region Programme". Please be aware that project platforms are not eligible for preparation costs granted by Interreg Baltic Sea Region.

Drop down menu
Yes, we have received the seed money support from the EUSBSR Seed Money Facility/Baltic Sea Region Programme
No, we have not received any seed money support from the EUSBSR Seed Money Facility/Baltic Sea Region Programme
3.6. Synergies with projects / other initiatives

Please present the added value of your project platform in relation to clustering or capitalisation activities of Interreg and other EU funding programmes and initiatives as well as coordination activities implemented by EUSBSR coordinators. The provided information should help to understand the additionality of the current project platform application to other programmes and initiatives.

Please select "yes" and provide the requested information, e.g.:
- Please indicate the names of programmes and initiatives where there is potential for cooperation, coordination or mutual learning.
- Please explain how your current project platform proposal uses or will use the experience and/or capitalisation results of other initiatives.
- If relevant, please describe the complementarity of the continued or parallel activities.

<table>
<thead>

</tbody>
</table>

3.7. Level of cooperation

Project platform partners must cooperate in the development and implementation and financing of the project platform. Therefore the fields "joint development", "joint implementation" and "joint financing" are already checked by the Programme. In addition, you can indicate whether you jointly staff your project platform.

3.8. Objectives and results

Each priority of the Programme is divided into specific objectives that describe the Programme’s contribution to a change in the Baltic Sea Region within the respective thematic field.

In the following section please explain how your project platform objectives and project platform results contribute to this change, i.e. how your project platform contributes to enhancing the institutional capacity of your platform's target groups within the selected thematic field.

Please define at least one project platform objective and describe the intended result for each objective. Choose one to five institutional capacity dimensions in which your project platform will enhance the institutional capacity of your target groups.

For more information about objectives, results and the institutional capacity dimensions please consult the Programme Manual (B.1 General objectives; D.3.1 Objectives and main activities of project platforms).

Project objective/Project platform objective

Please define at least one objective for the project platform. This objective should be referable to the <Programme objective>.

Institutional capacity building

Please select which institutional capacity dimensions of target groups your project platform will improve. You may select more than one dimension.
Project result/Project platform result

Firstly please name target groups whose institutional capacity will be enhanced in the selected dimensions. Then describe the platform result in terms of the enhanced capacity of your target groups, in particular through ensuring better usage, durability and transferability of the individual project outcomes. Please explain what change in the region/field this will lead to.

Horizontal principles

Sustainable development, equal opportunities and non-discrimination, and equality between men and women are three major horizontal principles that constitute an integral part of the EU policy and Interreg Baltic Sea Region. Supported project platforms have to promote these principles whenever possible.

Below please present how you will integrate these horizontal principles in your activities and outputs. Consider your platform’s influence on these principles as well.

For more information regarding horizontal principles please refer to the Cooperation Programme (8. Horizontal Principles) and Programme Manual (B.6 Horizontal principles).

3.9. Sustainable development

Please select the level of influence your project platform would have on sustainable development from the drop-down menu.

Then describe the impact on the sustainable development that your project platform will have. Outline how you will promote the sustainable development via the project platform and its main outputs (among others, related to environmental protection, resource efficiency, climate change mitigation and adaptation, disaster resilience and risk prevention and management, food supply, welfare).

Drop down menu: Positive - Neutral - Negative

3.10. Equal opportunities and non-discrimination

Please select the level of influence your project platform would have on equal opportunities from the drop-down menu.

Then please describe how your project platform will help promote equal opportunities and non-discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation. If applicable, outline how you will promote the principle via the project platform and its main outputs.

In addition, explain how you will address the principle on the operational level of the project implementation.

Drop down menu: Positive - Neutral - Negative
3.11. Equality between men and women

Please select the level of influence your project platform would have on equality between men and women in the Baltic Sea region.

Then please describe how you will help promote equality between men and women. If applicable, outline how you will promote the principle via your project platform and its main outputs. In addition, explain how you will address the principle on the operational level. Possible contributions can include e.g. female entrepreneurship, equal pay for work of equal value, equal decision-making capacity, consideration of various gender needs in social or urban planning.

Drop down menu: Positive - Neutral - Negative

3.12. Cross-cutting issues

If applicable, please describe how you will integrate one or more cross-cutting issues in the approach of your project platform. Outline the intended methods of addressing the selected issue(s), as well as name the possible outputs through which the issue(s) will be addressed. In addition, explain how the involvement of different partners and target groups will help address the selected cross-cutting issue(s). Note that the contribution to cross-cutting issues is not obligatory. However, the contribution to one or several of the issues is assessed as additional quality features of applications, which may be considered as an advantage by the Monitoring Committee when approving applications.

Please select the relevant cross-cutting issue(s) from the drop-down menu.

For more information regarding cross-cutting issues and additional quality features please consult the Programme Manual (B.7.2 Projects’ contribution to cross-cutting issues) and Cooperation Programme (4.4 Contribution of planned interventions towards macro-regional and sea basin strategies).

Cross-cutting issue

1. Cooperation with the partner countries (Belarus, Russia)
2. Multi-level governance
3. BSR common identity
4. Spatial planning/maritime spatial planning
5. Climate change adaptation and mitigation
6. Adaptation to demographic change
## 4.1. Description of strategic project management/project platform management

Please describe how the strategic project platform management will be organised. If planned to be set up, describe responsibilities and a composition of a steering group (or an equivalent structure). Please consider whether the project platform will involve national/regional decision-makers and EUSBSR coordinators from the relevant field to strategic management of the project platform. If yes, please explain how it will be implemented.

Please outline the main responsibilities of the steering group in leading the project platform towards its set objectives on administrative and content levels. If possible, mention the professional and project related background of the steering group members, its national composition, etc. In addition, please give brief information on main principles of the decision making by the steering group or an equivalent structure. In your description please present whether and how work package leaders and other project platform partners are involved in the strategic steering of the project platform (including the involvement of the content, finance and communication managers).

## 4.2. Description of project content management/project platform content management

Please describe the composition and competences of the content management team by providing the following information:
- Whether the content management will be organised internally or by an external support?
- How many positions are planned for project platform coordinator, communication manager, assistant, etc.?
- Whether you plan to involve any other expert in the project platform management team?

Please also describe the working relations between the lead partner, the work package leaders and the activity leaders when it comes to the content and communication management and answer the following questions:
- How are the work package leaders coordinating the work at a work package level?
- How are the responsibilities for the content work and communication divided between the work package leaders, activity leaders and the lead partner as well as the partners?

## 4.3. Description of the project financial management/project platform financial management

Please describe the composition and competences of the financial management team of the project platform by providing the following information:
- Whether the financial management is organised internally or by an external support?
- How many positions are planned for financial manager, financial assistant, financial accountant, etc.?
- Do you plan to involve a public procurement expert, etc.?

Please note that the financial management team is organised by the lead partner.

## 4.4. Financial control system

Please confirm the below elements of the sound financial control system.

### Work package budget

Please choose from the drop-down menu the approximate work package budget in % of the entire project platform budget.

<table>
<thead>
<tr>
<th>Work package budget</th>
<th>5%-100%</th>
</tr>
</thead>
</table>
4.5. Further details of the financial control and reporting system of your project platform

If relevant, please describe in this section those details of the financial control and reporting system which were not mentioned in any of the sections above.

4.6. Internal coordination and communication

Please describe the internal coordination within and among the content and financial management teams, as well as the coordination between the partners. We strongly recommend that you foresee measures to spread the knowledge of Programme rules and requirements to the entire partnership, as well as ensure tools to keep a track on each other’s activities. To this end, please outline the main tools and procedures of internal coordination, among others:
- Setting up a Financial/Content/Communication Management Manual;
- Carrying out partner training/seminars (at least at the start of your project platform);
- Face-to-face meetings/visits at partner premises;
- Online communication tools.

Work package [2-6]

Please present project platform activities, outputs, timeline and partner responsibilities. Depending on your needs you may plan from one up to five project platform specific work packages. For each work package you may define up to seven group of activities and outputs. Please group related activities in the same work package.

For more information on the work plan please consult the Programme Manual (D.1.2 Work plan and D.1.3 Outputs of regular projects).

4.1. Title

Please define a title reflecting the activities and outputs of this work package.

Work package budget

5%-100%

Please choose from the drop-down menu the approximate work package budget in % of the entire project platform budget.

4.2. Aim of the WP

Please describe the overall aim of this work package. Please explain how it supports further use of outcomes of the participating projects and how it increases their visibility.

4.3. Communication strategy in WP2

Please describe how the communication will contribute to achieving the work package aim by:
- Choosing the level of effect (what do you want to achieve with communication?);
- Listing the main target groups (whom do you have to target with communication activities?);
- Briefly describing the approach (how will you interact with the target groups?).

<table>

</tbody>
</table>

4.4. WP leader

Drop down menu

Please select from the list the work package leader. The work package leader is responsible for the implementation of the work package and the coordination of the work package activities.
### 4.5. Partner involvement

Please select from the list the partners which are involved in the work package activities and answer the following questions:
- Which are the particular competences of involved partners that are needed to successfully realise planned activities and deliver outputs?
- In case some specific partners have a significantly more active role than others, please explain this imbalance.

### 4.6 Reserved partner involvement (only if reserved partner indicated in the partnership)

Please select from the list the reserved project partners which are involved in the work package activities. Please add some examples how these partners from newly joining projects could contribute to achieving the aims of the project platform.

### 4.7. Associated organisations involvement

Please select from the list the associated organisations which are involved in the work package activities and answer the following questions and describe their role in the work package.

### Activities, outputs and responsibilities

Please describe the project platform activities, outputs, timeline and partner responsibilities. Depending on your needs you may plan from one up to five project specific work packages. For each work package you may define up to seven group of activities and outputs. Please group related activities in the same work package.

For more information on the work plan please consult the Programme Manual (D.3.1 Objectvies and main activities of project platforms, D.3.2 Outputs of project platforms).

### WP [2-6] Group of activities/Reserved project partners activities [2.1-6.7]

<table>
<thead>
<tr>
<th>4.13. Group of activities leader</th>
<th>Drop down menu</th>
</tr>
</thead>
<tbody>
<tr>
<td>Please select from the list the group of activities leader. The group of activities leader is responsible for the implementation of the activities and for the delivery of the (main) output.</td>
<td></td>
</tr>
</tbody>
</table>

#### Title

Please define a title (maximum 6 words) of the group of activities.

#### Description of the group of activities

A group of activities consists of several related activities. Please describe the activities that are planned in this group. In addition, please answer the following questions:
- Are these activities of a particular transnational relevance? How?
- Do the activities serve a pilot action purpose?
- How are the target groups involved in the activities and in the development of the output?
**4.14. Target group(s) and use of the main output** *(to be completed only if a main output is produced)*

The practical application of main outputs is what determines the change a project platform brings to its target groups and helps enhance their institutional capacity.

Please provide answers to the following questions:
- Which target groups will apply the main output (e.g. manage it, implement it, apply in their daily practice)?
- If applicable, which end-users will benefit from the main output (e.g. use established business support structures)?
- In which areas/regions the main output will be used?

**4.15. Environmental assessment**

Not relevant for project platforms. Project platforms should not plan any investments as the costs of equipment and investments are not eligible for project platforms.

**4.16. Timeline**

Please indicate in the timeline the duration of the activities in periods. A period is six months. Please also indicate in which period you estimate to finalise the (main) output.
Output indicators

### 5.1. Obligatory output indicator

The output indicator ‘Documented learning experience’ is obligatory for all projects, including project platforms, in Interreg Baltic Sea Region.

In the context of project platforms, this indicator relates to the process through which platform partners and further target groups outside the formal partnership acquire institutional knowledge in the transnational context. The process is based on utilising outcomes of participating projects through networking, joint development or testing. It results in a jointly produced output (e.g. policy paper, agreement, collection of best approaches, political statement).

Please describe how your project platform will contribute to this obligatory output indicator. You may define up to three 'learning experiences'.

### 5.2. Project specific output indicators / Project platform specific output indicators

Please describe how your project platform will contribute to the selected output indicators. Please also indicate the target value in numbers. In case of no contribution please mark the respective output indicator as not relevant.

<table>

The output indicator ‘Documented learning experience’ is obligatory for all projects, including project platforms, in Interreg Baltic Sea Region.

In the context of project platforms, this indicator relates to the process through which platform partners and further target groups outside the formal partnership acquire institutional knowledge in the transnational context. The process is based on utilising outcomes of participating projects through networking, joint development or testing. It results in a jointly produced output (e.g. policy paper, agreement, collection of best approaches, political statement).

Please describe how your project platform will contribute to this obligatory output indicator. You may define up to three 'learning experiences'.
Budget

6. Budget

The total budget for a project platform can be up to EUR 1,000,000. Platform partners have to provide their own contribution to receive Programme co-financing. The majority of the platform funding would be required to cover the staff costs, travel and accommodation costs as well as costs related to organisation of events and other communication activities. External expertise may be included, if needed. Please note that the costs of platform preparation and the costs of equipment and investments are not eligible for project platforms.

Please present the project platform’s budget. Here only the data on the project platform level should be given.

If reserved partners are planned for the project platform, their budgets have to be presented in the respective budget lines as any other regular partner’s budget. In sections 6.1 – 6.3 the relevant reserved partner has to be selected from the list. In sections 6.5 and 6.6. the reserved partners are already pre-filled.

Rules and definitions regarding the allocation of costs to the budget lines can be found in the Programme Manual: (chapter D.3.5. Budget and eligibility of costs and chapter F Project budget and eligibility rules).

6.1 External expertise and services

As noted above, in the guidance for section 6. Budget, external expertise may be included to the project platform’s budget, if needed.

Please list the planned contracts with external experts and service providers belonging to the budget line 4 (Programme Manual, chapter F.3.4 Budget line 4 – External expertise and services costs) and describe their links to the project platform activities. As a general rule each planned contract has to be listed in a separate line. Only similar contracts of a value below 5,000 EUR may be grouped per partner and described within one line (e.g. “translations of publications”).

Column B - A concise contract specification has to clearly describe a type and subject of the contracted service/expertise (e.g. “Analysis of market data collected by partner 5” instead of e.g. “Analysis”).

Column C - As no investments may be planned, the column is inactive.

Column D - For each item you have to indicate at least one activity no. to identify the relation to the activity plan. Please focus on the main activities.

Column E - The contracting partner is the partner responsible for tendering and concluding the contract(s).

Column F - Please indicate the estimated contract value.

Column G - Please indicate the planned award/procurement procedure. Rules regarding public procurement (see Programme Manual, chapter F.1.4 Procurement procedures) must be observed.

PLEASE NOTE: The responsibility to use the correct award procedure remains with the responsible partner. An approval of the application does not mean an approval of the planned award procedure.
6.2 Equipment
Project platforms must not plan any equipment as the costs of equipment and investments are not eligible for project platforms.

6.3 Infrastructure and works (relevant only if investments are planned)
Project platforms must not plan any infrastructure and works as the costs of investments are not eligible for project platforms.

6.4 Expenditure for specific project activities
This section is visible only after it is activated by the MA/JS. The section is activated only in the exceptional cases defined in the Programme Manual (chapter F.3.7 Budget line 7 – Expenditure for specific project activities (E.g. expenditure for large research activities at sea etc.)) and after a successful consultation with the MA/JS. When completing this section, please follow the individual guidance provided by the MA/JS during consultations.

Please specify which partner will report the Other costs, describe the unit(s) and add the relevant activity numbers. Furthermore, add a maximum no. of units needed and the justification. Finally, indicate the amount per unit with a brief justification. In addition, please add a supporting document with detailed justifications (e.g. with historical data, which was the basis to calculate the amount per unit).
### 6.5 Breakdown of planned project costs per budget line & per partner

Please add the costs planned for BL 1 "Staff costs" and BL 3 "Travel & accommodation" per partner. Amounts for BL 2 "Office and administration costs" are calculated automatically (based on BL 1 inputs). Amounts for BL 4 "External expertise & services" and BL 7 "Specific project activities" are taken from other sections of the application.

For more information regarding the division of costs into the budget lines please refer to the Programme Manual (chapter F Project budget and eligibility rules).

### 6.6 State Aid expenditure

<table>

</tr>
</tbody>
</table>

### 6.7 Planned project budget per funding source & per partner

This section provides a summary of the planned costs per partner and calculates the amount of the budgeted Programme co-financing as well as the partners' own contributions.

### 6.8 Spending plan - per reporting period

Please indicate the planned spending per reporting period for each group of partners. In case reserved partners have been planned in Section 2. Partnership, please indicate sub-amounts related to the reserved partners, too.

Further details about the financial planning and the consequences for the de-commitment can be found in the Programme Manual (chapter F.6 Financial planning and de-commitment).

### 6.9 Net-revenues

Please indicate whether any of the project platform partners expects to generate net revenues within the project platform activities. The definition of net-revenues and other details can be found in the Programme Manual (chapter F.1.8 Cash inflows).

In general, it is not expected that platform partners will generate any net revenues.
**Preparation cost**

7.1 Preparation costs

Please note that the costs of platform preparation are not eligible for project platforms. Thus, please select "no" in the drop-down menu in this section.
